hey dave, here's what I know.....

commercial fishing goes out at least 12 to 15 miles out. also subsistence fishing and shell fish are taken with in Nazan Bay, some as close as town like 1/2 a mile from town.. korovin lake fish species taken are silver salmon, red salmon, pink salmon, trout. also the water fowl are consumed as well.. for poundage it ranges from 20 lbs to 25 lbs per year for both korovin and dock lake..

well I hope this answers your questions. bye (b) (6)
